# 2019 WELDING INDUSTRY SUMMIT

## August 29–30, 2019

### The Woodlands Resort | The Woodlands, TX

Drill deeper into welding operations, learn the best way to convert welding plans into successful projects and discover how more value can be brought to your welding operations during the 2019 Welding Industry Summit. Join other industry professionals in a variety of interactive presentations, panels, and round table discussions focusing on personnel, equipment and project benchmarks that improve your operation's quality, productivity and safety.

#### UNLOCKING THE HIDDEN COST OF WELDING

Put real numbers to your operation

It's possible to apply a cost-measuring analysis to every step of your process. Can you afford not to? This program explores the impact quality standards have on productivity and profits for you and your welding workforce.

You'll learn:

- How improvements in quality can significantly reduce your labor and bottom-line costs
- The effects of gas and other weld parameters on penetration
- Ways to trim your operating budget up to 20% (with little or no capital investment)

We'll help you develop the needed skills to refine your welding process and improve your bottom line.

#### Other Presentation and Discussion Topics include:

Welding Economy • Value Chain Approach to Welding Management: *How Leveraging New Technology Can Add to Your Bottom Line* • High Deposition Metal Transfer Technology Meeting Quality and Performance Expectation • Industrial Gas Supply Mode Efficiencies • Recruitment Strategies for Welding Professionals and Craft • Modular Projects Are Like Puzzles • Welding Costs for Improvement Opportunities • Weld Metal Procurement – The Market is Changing • Creep Strength Enhanced Ferritic P91 Welding • Purgeless Pipe TIG Welding • Why Robotics: *How to Ensure Your Project Makes Economic Sense*
